

**Meanwhile, back at home:**

**your mortgage...**

**...gone to war**

**A Predator drone costs us \$4.5 million. The newer model, a Reaper, costs \$8 million.**

**The US has purchased 12,000 DRONES including 195 Predators and 28 Reapers, (with money we borrowed from China – and our children’s futures).**

**We now spend \$700 MILLION per DAY on war: since 2001, the wars in Iraq and Afghanistan have cost us \$896 billion. In California, the total cost we’ve spent to date is \$115.9 billion and rising.**

**There are now 15 million unemployed Americans.**

**Over 52 million Americans have no health insurance.**

**Over 1.5 million families have already lost their homes.**

**What can you do? Call your Congress members. Tell them to end the wars and fix the problems at home:**

**Congressional Switchboard 202/224-3121**
